The CITY OF PARIS

June 15, 1999
ON

Mr. Chris Brook
Environmental Coordinator
Texas Department of Transportation
1365 North Main Street
Paris, Texas 75460

Dear Mr. Brook:

In conversation with you we have learned that two historic truss bridges located on FM 1510 and FM 1509 respectively are scheduled for replacement in 2000. These historic bridges would make a wonderful addition to Dragon Park in Paris and serve as pedestrian bridges over a drainage ditch connecting two recreational areas.

On behalf of the City of Paris, I respectfully request that we be given the opportunity to obtain these two historic truss bridges when they are taken out of service so that we can maintain them in a park setting.

Thank you for your consideration and assistance in this matter.

Respectfully submitted,

Michael E. Malone
City Manager

RESPONSIBILITIES OF THE STATE

The State or the State's contractor will be responsible for the following items of work:

Removing all asphaltic material from the bridge and disposing of this material in a manner acceptable to the State.

Removing all timber decking and timber stringers and disposing of them in a manner acceptable to the State.

Disassembling the structure into trusses, floors beams and cross bracing.

Making any repairs to the structure that the State determines to be necessary.

Cleaning the structure to remove any and all lead paint that may be present.

Transporting the disassembled structure to Dragon Park on the campus of Paris Junior College, in the City of Paris, Texas.

Unloading the disassembled structure onto cribbing that has been placed by the Recipient to receive the structure.

REIMBURSEMENT OF COSTS

The cost for performing the responsibilities listed above shall be born entirely by the State, with no reimbursement to be made to the State by the Recipient for this work.

EXHIBIT C

RESPONSIBILITIES OF THE RECIPIENT

The Recipient or the Recipient's contractor will be responsible for the following items of work:

All site preparation at the receiving site, including grading, foundations, abutments, etc.

Priming and painting the bridge, including any necessary preparation.

Furnishing any necessary hardware and reassembling the bridge on the new foundation.

Furnishing and installing stringers and decking.

Constructing all necessary approach spans, handrails and other appurtenances.

REIMBURSEMENT OF COSTS

The cost for performing the responsibilities listed above shall be born entirely by the Recipient, with no reimbursement to be made to the Recipient by the State for this work.
